HELPS PEOPLE IN MANUFACTURING CONTROL THEIR DESTINY EVERY DAY

### Biography

Applications Engineer  
**Rick Spencer**

Rick Spencer is an Applications Engineer for Hartwig, Inc. based out of the Kansas City office. He has been with Hartwig, Inc. since 2006. He attended Southeast Community College in Milford, NE and received his associate of Applied Science in Machine Tool and CAD CAM Technology.

Rick worked for Weld Racing for 6 years as the manufacturing/design engineer before his career at Hartwig, Inc. His main responsibility as an Application Engineer for Hartwig, Inc. is supporting the sales engineers. This includes providing customers with the newest technology in machine tools, cutting tools and fixturing for their manufacturing facilities.

He also provides customers with turnkey solutions for today's competitive manufacturing environment. When he is not busy assisting the sales team he provides training for customers when they purchase new equipments.
