HELPS PEOPLE IN MANUFACTURING CONTROL THEIR DESTINY EVERY DAY

Biography

Applications Engineer

Tom Voges

Tom Voges is an Applications Engineer for Hartwig based out of the St. Louis office. He has been with Hartwig, Inc. since May of 2007.

Tom began working in manufacturing in 1990 with Mazak Corp. After about a year he went to work for a small machine shop as a CNC lathe programmer, lead man and area supervisor for 8 years. He has also worked for Hydromat, Inc. doing time studies, part processing, layout and equipment quoting on rotary transfer machines for 8 years.

Tom's role in the Application department includes time studies, part processing, equipment selection, control training, teaching classes, and turnkey projects.
